

SHARMILA J

Frontend Developer | AI & Data Science

sharmijambu9@gmail.com | +91 9087584678 | Chennai, Tamil Nadu, India | Github: sharmijambu9 | LinkedIn: sharmila jambu

PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence and Data Science at Panimalar Engineering College (CGPA: 8.2/10). Full-stack web developer with 3 internships building responsive web applications using React.js, HTML, CSS, and JavaScript. Experienced in Java-based backend development with Spring Boot and MySQL, delivering end-to-end web solutions. Co-author of a CNN-based research paper achieving 94% model accuracy; Qualified Round 2 of Capgemini Exceller AgentifAI Buildathon 2026. Seeking entry-level Java Developer or Full-Stack Web Developer roles to build scalable, user-focused applications.

EDUCATION

B.Tech – Artificial Intelligence and Data Science – Panimalar Engineering College
Oct 2023 – Present
CGPA: 8.2/10 (up to VI semester)

Higher Secondary Education (HSC) – Velammal International School
2021 – 2023

PROFESSIONAL EXPERIENCE

Web Development Intern – ApexPlanet
Jun 2026 – Jul 2026
ID: APSPL2636317

- Crafted responsive web application interfaces using HTML, CSS, and JavaScript, integrating 4 new API endpoints to expand application data capabilities.
- Built 5+ responsive page templates with DOM manipulation, form validation, and event-driven programming, cutting layout setup time by 30%.
- Technologies: HTML, CSS, JavaScript

Python Development Intern – Industrial Design & Animations - Jun 2025 – July 2025

- Built a Python Fitness Tracker desktop app (Tkinter + Firebase) tracking 10+ health metrics with real-time cloud sync for multi-user sessions.
- Implemented secure user authentication, reducing unauthorized access attempts to 0 across all test sessions.
- Technologies: Python, Tkinter, Firebase, GUI Development

Web Development Intern – Yantra Software Solution - Feb 2025 – Apr 2025

- Engineered a responsive web application with React.js and Firebase, reducing component re-renders by 40% through optimized state management.
- Integrated 3 backend APIs connecting frontend UI to server, improving data-fetch efficiency and delivering a seamless user experience.
- Technologies: HTML, CSS, JavaScript, React.js, Firebase

PROJECTS

AI Tax Filing System – Jan 2026 – Apr 2026

- Architected a full-stack ITR filing platform (React.js, Java Spring Boot, MySQL) with AI-assisted form auto-fill, cutting manual data entry time by ~60%.
- Integrated automated tax calculation, ITR form generation, and ChatBot support serving 3 ITR form types with real-time prediction insights.
- Technologies: React.js, Java Spring Boot, MySQL

Advanced Portfolio Website – Jun 2026 – Jul 2026

- Constructed a single-file responsive portfolio (HTML/CSS/JS) with animated reveals and project filtering, achieving 100% cross-browser compatibility across Chrome, Firefox, and Safari.
- Technologies: HTML/CSS, JavaScript, React.js, Firebase

Music Application – Musicolic – Feb 2025 – Apr 2025

- Built a music streaming app in React.js + Firebase supporting unlimited song playback with smooth UI animations and <2s load time.
- Technologies: React.js, Firebase, CSS

TECHNICAL SKILLS

- **Java, Python, HTML/CSS, JavaScript** Programming Languages:
- **React.js, Tkinter** Frameworks & Libraries:
- **MySQL, Firebase, JSP/Servlets, SQL** Databases & Backend:
- **Git, Eclipse, Jupyter, VS Code** Tools & Platforms:
- **Data Analysis, Data Science, Machine Learning (Fundamentals)** AI/ML:

CERTIFICATIONS

- NASSCOM (IT-ITeS SSC) – Professional Full Stack Web Development: HTML, CSS, JS, ReactJS
- Infosys Springboard – Programming using Java
- NASSCOM – Cybersecurity & Data Analysis
- NPTEL – Python for Data Science
- Oracle – Generative AI
- Anthropic – AI Fluency for Students

ACHIEVEMENTS & COMPETITIONS

Capgemini Exceller AgentifAI Buildathon 2026 – Qualified Round 2 – 2026

- Advanced to Round 2: The Deep Dive (top teams selected from national pool), focusing on solution architecture, technical approach, and execution depth.
- Assigned a dedicated Capgemini mentor and attended mandatory Mentor Connect sessions.

IEEE Xtreme 24-Hour Global Coding Challenge – 2024

- Competed among 5,000+ global participants in a 24-hour coding marathon, solving complex algorithmic problems under strict time constraints.
- Ranked within top global competitors, demonstrating proficiency in data structures and algorithms under pressure.

LEADERSHIP & EXTRACURRICULARS

Capgemini Buildathon Team Representative – May 2026 – Jun 2026

- Represented the team in mentor sessions and technical presentations, communicating solution architecture to Capgemini engineers during Round 2 evaluations.

PUBLICATIONS

AI Based Pain Detection System for Non-Communicative Patients – 2026

- Co-authored with Dr. W Gracy Thresa, Vaishali R, Thirumalini J, Mahalakshmi B – Panimalar Engineering College.
- Proposed a CNN-based deep learning system detecting pain in non-verbal patients via facial expression analysis and physiological signal fusion; achieved 94% accuracy, 93% precision, 92% recall, and 92.5% F1-Score.
- Status: Under Review – Scopus-Indexed Journal, 2026
