PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence and Data Science at Panimalar Engineering College with a CGPA of 8.2. Responsible and organised individual with hands-on experience in Python desktop development, full-stack web applications, and data science. Backed by internships, research publications, and a growing portfolio of meaningful projects. Open to internships, entry-level developer roles, and any opportunities to learn and grow.

EDUCATION

B.Tech – Artificial Intelligence and Data Science Oct 2023 – Present
Panimalar Engineering College, Chennai, India CGPA: 8.2 (up to VI semester)

Higher Secondary Education (HSC) 2021 – 2023
Velammal International School, Chennai, India

PROFESSIONAL EXPERIENCE

Web Development Intern – ApexPlanet Jun 2026 – Jul 2026
ApexPlanet, Remote | ID: APSPL2636317

- Gaining hands-on experience in Web Development with HTML, CSS, and JavaScript.
- Deepening understanding of various web concepts in a dynamic professional environment.
- Technologies: HTML, CSS, JavaScript

Web Development Intern Internship
Yantra Software Solution

- Developed responsive web Application with modern user-friendly interfaces.
- Enhanced functionality through Frontend and Backend Integration for a seamless user experience.
- Technologies: HTML, CSS, JavaScript, React.js, Firebase

Python Development Intern Internship
Industrial Design & Animations

- A Python-based Fitness Tracker application with interactive GUI and cloud-backed data storage.
- Enabled real-time data synchronisation and Secure user data management
- Technologies: Python, Tkinter, Firebase, GUI Development

SKILLS

- Programming Languages:** Java, Python, HTML/CSS, JavaScript
- Frameworks & Libraries:** React.js, Tkinter
- Databases & Backend:** MySQL, Firebase, JSP/Servlets, SQL
- Tools & Platforms:** Git, Eclipse, Jupyter, VS Code
- AI/ML:** Data Analysis, Data Science, Machine Learning (Fundamentals)
- Soft Skills:** Time Management, Communication, Critical Thinking, Team Work

CERTIFICATIONS

- NASSCOM (IT-ITeS SSC) – Professional Full Stack Web Development: HTML, CSS, JS, ReactJS
- Infosys Springboard – Programming using Java

- NASSCOM – Cybersecurity & Data Analysis
- NPTEL – Python for Data Science
- Oracle – Generative AI
- Anthropic – AI Fluency for Students

ACHIEVEMENTS AND ACCOMPLISHMENTS

Capgemini Exceller AgentifAI Buildathon 2026 – Qualified Round 2

- Team successfully qualified for Round 2: The Deep Dive – Detailed Technical Solutioning of the Capgemini Exceller AgentifAI Buildathon 2026.
- Shortlisted for detailed technical deep dive focusing on solution architecture, technical approach, implementation strategy, and execution depth.
- Assigned dedicated Capgemini mentor for the round; all team members required to attend mandatory Mentor Connect sessions.

IEEEExtreme 24-Hour Global Coding Challenge- Global Competition

- Competed in an international 24-hour coding marathon solving complex algorithmic problems under strict time constraints.
- Demonstrated problem-solving ability and competitive programming skills on a global stage.

PROJECTS

AI Tax filing System

- A full-stack Indian ITR filing platform that enables users to file tax returns through AI-assisted form auto-fill and secure document uploads.
- Provides automated tax calculation, ITR form generation, ChatBot support, and tax prediction insights for better financial planning.
- Technologies: React.js, Java Spring Boot, MySQL

Music Application-Musicolic

- An interactive music streaming app with smooth UI animations and seamless front-end/back-end integration.
- Technologies: React.js, Firebase, CSS

Advanced Portfolio Website

- Optimised, responsive, single-file web app with animated reveals, skill bars, project filtering, and cross-browser compatibility.
- Technologies: HTML/CSS, JavaScript, React.js, Firebase

PUBLICATIONS

AI Based Pain Detection System for Non-Communicative Patients 2026

- Co-authored with Dr. W Gracy Thresa, Vaishali R, Thirumalini J, Mahalakshmi B – Panimalar Engineering College.
- Proposes a CNN-based deep learning system to detect pain in non-verbal patients (infants, unconscious patients) via facial expression analysis and physiological signal fusion.
- System achieves 94% accuracy, 93% precision, 92% recall, and 92.5% F1-Score.
- Status: Under Review for Publication in Scopus-Indexed Journal, 2026
